Tucson, AZ 85713

EPIC Tabletop Exercise

This Disaster Ready / EPIC Tabletop Exercise is designed to provide participants with an opportunity to review the elements of a compliant Water Management Plan (WMP) focused on reducing the threat of a Legionella outbreak in a long term care facility.

The session will include:

- An educational refresher on Legionella
- A facilitated exercise where participants will be required to manage an emergent situation in a long term care facility
- How to accommodate residents being evacuated from other health care facilities.
